There is so much beauty on this 1.5 acre farm in Omaha, Ne. There are native pollinator gardens buzzing with bees and butterflies, and there are rows and rows of beautiful organic produce growing that will make their way to our Omaha restaurants. It is absolutely worth visiting and supporting this local, Earth friendly farm.

I love their "\$100 box" for treats and goodies. The jelly is delicious (I eat it with a spoon) and the healing balms have been miracles for my family's psoriasis and eczema. Thank you BB! ❤️

I've used soap, candles, and herbs from BB and I think they're all amazing! Great smells on the products, and all made naturally and sustainably. As for the herbs, my favorite is anise hyssop, makes great tea and can be mixed in with other herbs (🌿), really nicely!

I ordered a lovely little basket of soaps, house scents, and spices and herbs as a gift on VERY short notice. She even delivered it for me on the same day! Her communication was excellent, and the basket was perfect. I would highly recommend her and will gladly support this business in the future. Thank you so much!
